

PRODUCT SUMMARY

NZMP™ Unsalted Butter, 12.5kg Convenience Pack

Product overview

The NZMP™ Unsalted Butter 12.5kg Convenience Pack provides customers with a smaller pack size of NZMP Unsalted Creamery Butter making it easier to handle. Its unique inner packaging delivers easier handling and storage. It is ideal for small to medium commercial kitchens and food processing environments.

NZMP's Unsalted Creamery Butter is made from high quality fresh cream using world leading butter making technology. It consistently delivers the superior flavour and mouth feel needed for a wide range of bakery goods and confectionery products. It also serves as a versatile ingredient in a wide range of food and beverage products. NZMP's Unsalted Creamery Butter has an excellent shelf life and maintains its fresh flavour.

Key benefits

- ✓ **Light weight**
 - 12.5kg, easier to lift and move
 - Convenient
 - Ease of handling (easier to cut and process)
- ✓ **Quality**
 - Made from high quality cream
 - Manufactured using world-leading butter making technology
- ✓ **Stable**
 - Made to maximise shelf life stability and consistency
 - Frozen after manufacture to preserve the fresh flavour
- ✓ **Flavour**
 - Predominantly grass fed, our cows produce milk with higher levels of Omega 3, CLA fats, more vitamin E and more beta carotene
 - Full, creamy, dairy flavour
- ✓ **Reliable**
 - Delivers a consistent solution for your manufacturing needs
 - Reliable supply throughout the year

Applications

- ✓ Cookies and biscuits
- ✓ Asian pastries

1. Methylene interrupted trans

2. Please refer to individual country regulations for trans fatty acid labelling requirements

Storage and handling

We employ strict quality control and monitoring procedures during manufacture, as well as internationally recognised final product testing procedures, to ensure this butter is consistently excellent quality. Finally, all our products are traceable to their source.

Our NZMP Unsalted Creamery Butter is frozen after manufacture and has a frozen shelf life of typically 24 months from time of manufacture. To preserve its pure, clean flavour it should be:

Kept frozen at
-10°C to -25°C

Kept away
from odours

Kept out of
direct sunlight

Used strictly
in rotation

Format

- 12.5kg block
- Halal
